# Trade Price List

1907-1908

## PLEASE READ CAREFULLY BEFORE ORDERING.

The publication of this list cancels all previous quotations.

**TERMS**—Cash with order or usual trade references from unknown correspondents. All accounts become due and subject to draft, unless otherwise arranged, 60 days from date of invoice. Two per cent discount for remittance within 30 days from date of invoice.

**DOMESTIC REMITTANCES** requested by Postal or Express Money Order, Registered Letter or draft on a New York or Atlanta Bank. Our banks charge for collection of local checks.

**FOREIGN REMITTANCES** are payable in United States currency through Money Order on Atlanta Postoffice or Draft on a New York or Atlanta Bank. **We ask that remittances not be made in foreign postage stamps or foreign individual checks.**

**POSTAGE**—The rate is 8c per pound, which ought to be added to remittance. Limit to weight in domestic mail is four pounds and in foreign mail twelve ounces. Registration fee in all instances 8c per package.

**PARCELSPOST** packages are admitted to a number of foreign countries now. Limit of weight per parcel is four pounds six ounces, and the rate is twelve cents per pound or fraction thereof.

**FREIGHT AND EXPRESS**—Unless instructed we shall use our own discretion as to kind of conveyance or route. Nearly all express companies allow now a deduction of twenty per cent. from regular merchandise rates for shipment of seeds and roots. All goods sent at risk of consignee.

**FOREIGN SHIPMENTS** will be consigned to Downing's Foreign Express, 58 New St., New York, or their correspondents at other ports, unless we receive other instructions.

**MARINE INSURANCE** will be effected only at request and expense of consignee.

**REQUEST FOR EARLY ORDERS**—We do not sell any old seeds and do not take in stock, therefore, much larger quantities than we can be reasonably sure of selling during the ensuing season. It is very important on this account, especially, that orders for large quantities of early maturing kinds, should reach us as early as possible in the season to assure complete execution. While we anticipate at this writing a supply of all kinds offered our acceptance of orders is not a warranty for delivery, but it is subject to crop accidents and limits of crops. All quotations are subject to change without notice.

**WARRANTY**—While we exercise greatest care to have all our seeds, bulbs, plants, etc., pure and reliable, they are sold without warranty and without any responsibility, expressed or implied, in respect to the crop. If our goods are not accepted on these terms we must be informed at once after their inspection upon arrival at destination to arrange for their return. We can not consider deferred claims or claims after the seeds have been planted.

An exchange of catalogs, seed lists, etc., is desired

**This list is intended only for the Trade and others entitled to wholesale prices. Our beautiful illustrated descriptive Catalog contains a wealth of valuable information. Please ask for it.**
